

☆ Rock Star pony tail holder ☆
☆

STEPS:

make this easy pony tail holder by starting with a holder from a dollar store and then altering it.

1.) I found this Jonas Brothers ponytail holder & removed the stickers.

2.) Next I used the cuttle bug and embossed a star onto tin metal and glue it w/ E600 to the ponytail

3.) Now using a neon yellow felt and my cuttlebug I cut out a flower shape and glued it on top of the metal star.

Boom that's it
repete over and
over - These would
make a great
favor for a Birthday
party!

Enjoy! XOXO LL
